Plan for Technical Foundation

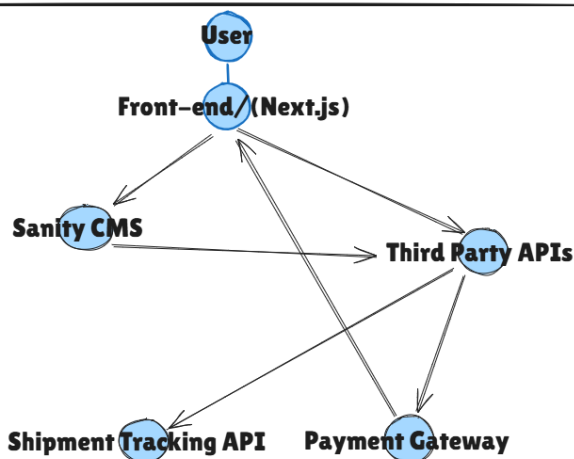

User: Performs actions like browsing products or placing an order

Front-end-(Next.js): Sends user action to the backend and third-party APIs

Sanity CMS: Manage and store all orders and product data

Third Party APIs: Handle shipment tracking and payment processing

Shipment Tracking: Provides real-time delivery updates to the front-end

Payment Gateway: Processes payments and sends confirmation back

User: Performs actions like browsing products or placing an order

Front-end-(Next.js): Sends user action to the backend and third-party APIs
